

## **BRIEFS**

# Area firms on state's growth list

### **STAFF, NEWS SERVICES**

Five northeast Indiana companies were named Thursday to the state's list of 41 Companies to Watch, based on growth.

Fort Wayne companies on the list are: Jack Laurie Floors LLC, commercial and residential flooring; JH Specialty Inc., Internet marketing; Prairie Quest Inc., information technology services; and Solstice Medical LLC, health care information technology. Huntington-based Shuttleworth Inc., a materials handling manufacturer, also made the cut.

The designation is given by the Indiana Economic Development Corp., Purdue University and the Edward Lowe Foundation to privately held businesses that employ up to 150 and have between \$750,000 and \$100 million in annual revenue or capital.

The third annual list was compiled after officials reviewed more than 300 nominations.
